

Supported devices

The following devices are currently supported. This list is constantly being expanded. Please [ask us](#) when your desired device will be supported or report your request to us. We can integrate most devices into our **ASKOHOME** in a short time

Device type	Description	Interface
Hot water	- ASKOHEAT+	LAN (Modbus TCP)
	- MyPV ELWA-E	LAN (http)
	- My PV ACThor mit ASKOHEAT-OP	LAN (http)
	- Fronius Ohmpilot mit ASKOHEAT-OP	LAN (http)
Heater / Heat pump	- Alpha Innotec Luxtronic 2.0	LAN (TCP/IP)
	- Every SG Ready heat pump via potential-free relays (GUDE 2302)	LAN (http)
	- Heliotherm RCG X	LAN (Modbus TCP)
	- STIEBEL ELTRON via ISG Web	LAN (Modbus TCP)
	- PV Ready with Shelly 1	WLAN / LAN (http)
	- S&W Futura HSW	LAN (Modbus TCP)
Car charging station	- KEBA Wallbox P30c and P30x	LAN (UDP)
	- go-eCharger HOME+	WLAN / LAN
	- ABB EVLunic Pro S and Pro M	LAN (UDP)
	- JUICE CHARGER 2	LAN (http)
	- Etrek Inch	LAN (Modbus TCP)
	- eease Home (incl. 1-/3 phasen switching)	LAN (Cloud API)
Inverter	- Fronius Symo	LAN (http)
	- SolarEdge SE	LAN (Modbus TCP)
	- SMA Sunny Tripower / Boy	LAN (Modbus TCP)
	- Kostal PLENTICORE plus	LAN (Modbus TCP)
	- Kostal PIKO IQ	LAN (Modbus TCP)
	- Kostal PIKO 4.2-20	LAN (http)
	- KACO Tx1 and Tx2	LAN (Modbus TCP)
	- SolarMax S and MT	LAN (TCP/IP)
	- Output measures via EM300	LAN (Modbus TCP)
	- Output measures via smart-me Meter 3-Phasig 5(80)A, MID	LAN (directly via smart-me Cloud)
	- ABB Trio mit VSN300	LAN (Modbus TCP)
Smart Plug / switch	- smart-me plug (e.g. for bicycle)	LAN (directly via smart-me Cloud)
	- smart-me relay on 3-phasen meter	LAN (directly via smart-me Cloud)
	- Relay box GUDE 2302 (switch power directly up to 16A with definable PV excess (4 channels)	LAN (http)

	- myStrom Energy Control Switch	LAN (http)
	- Shelly 1, Shelly 1PM, Shelly 2.5, Shelly 4Pro	WLAN (http)
Smart Meter / Energy measurement	- Fronius Smart Meter	LAN (http)
	- SolarEdge Energy Meter	LAN (Modbus TCP)
	- Smart-me Cloud (z.B. smart-me Meter 3-phase 5(80)A, MID / virtual counters are also possible)	LAN (directly via Smart-me Cloud)
	- B-Control EM300	LAN (Modbus TCP)
	- GUDE Expert Net Control 2312-1	LAN (http)
	- EmonCmsSmartMeter	LAN (http)
	- Carlo Gavazzi EM24	LAN (Modbus TCP)
	- my-PV Power Meter	LAN (Modbus TCP)
	- Clemap ONE	LAN (http)
	- KOSTAL Smart Energie Meter	LAN (Modbus TCP)
	- Shelly 1, Shelly 1PM, Shelly 2.5, Shelly EM, Shelly 3EM, Shelly 4Pro	WLAN (http)
Storage / Battery	- BYD B-BOX H with Victron Energy Venus GX	LAN (Modbus TCP)
	- BYD B-BOX H with Kostal PLENTICORE plus and Energy Manager EM300-LR	LAN (Modbus TCP)
	- sonnenBatterie from 8.0	LAN (http)
	- sonnenBatterie from 6.0	LAN (http)
	- Fronius Hybrid with BYD, FB	LAN (http)
	- GREENROCK salt water batteries (no further consumption measurement necessary)	LAN (Modbus TCP)
	- E3/DC	LAN (Modbus TCP)
	- Tesla Powerwall 2 (no further consumption measurement necessary)	LAN (https)
	- SOLARWATT MyReserve	LAN (https)
	- Solaredge StorEdge Products	LAN (Modbus TCP)
	- Innovenergy salidomo 9/18	LAN (Modbus TCP)
	- Powerball Systemspeicher	LAN (Modbus TCP)
Storage / Battery	- VARTA Storage	LAN (http)
